Summary of Undergraduate and Graduate Level Headcounts and Full-time Equivalency (FTE) by Colleges and Delivery Mode
For the Office of Academic Affairs and College of Graduate Studies

Fall 2010 through Fall 2012

(Supplemental report to the “Graduate Level Headcount, Part-time Hours Enrolled, and Full-time Equivalency (FTE)” report)
Georgia Southern University
Office of Strategic Research and Analysis (OSRA)
April 22, 2013

Project Request: Provide Summary Data of Undergraduate and Graduate Level Headcounts and Full-time Equivalency (FTE) by Colleges and Delivery Mode, Fall 2010 through Fall 2012

Created for: Academic Affairs and College of Graduate Studies

Project Abstract: These report data include a summary of headcounts (full-time, part-time, and total), Full-time Equivalency (FTE), and students who are in fully (WebF) or partially (WebP) online programs or traditional programs by college.

Methodology: The Academic Data Mart (ADM) Legacy Like Table (LLT) files for Fall 2010-12 were used to identify undergraduate and graduate level students. These files contain the data elements necessary to calculate FTE and headcounts. FTE for graduate level students is calculated as full-time headcount plus (part-time hours enrolled divided by 9). FTE for undergraduate level students is calculated as full-time headcount plus (part-time hours enrolled divided by 12).

Please note that the ADM LLT files are referred to throughout this report as the “University System of Georgia (USG) Census Enrollment Files”.

The program Code YEN_PROGRAM_1_DESC in YSR) was used to identify those students in fully (WebF) or partially (WebP) online programs. Traditional programs in these report data are defined as students who took courses on the main campus.

Note. Prior to Fall 2012, the College of Engineering and Information Technology (CEIT) was the College of Information Technology (CIT) and the College of Science and Mathematics (COSM) was the College of Science & Technology (COST). Prior to Fall 2012, Engineering and Engineering Technology majors were in COST. The USG-BOR does not round FTE, but in this report FTE is rounded to the nearest whole number.
